Strengthening Operators' Capacities as a Key Aspect for the Sustainability of Water and Sanitation Services in the Region

Strengthening Operators' Capacities as a Key Aspect for the Sustainability of Water and Sanitation Services in the Region

Quick Facts

Financial Institutions	Inter-American Development Bank (IADB)
Status	Active
Bank Risk Rating	U
Voting Date	2021-10-18
Borrower	Regional
Sectors	Technical Cooperation, Water and Sanitation
Investment Type(s)	Advisory Services, Grant
Investment Amount (USD)	$ 0.75 million
Project Cost (USD)	$ 0.75 million

Project Description

The objective of the TC is to promote greater sustainability of water and sanitation services through support to operators. To do so, it is proposed to work along three lines: (i) development of training materials and training for operators; (ii) development of tools adapted to small operators to provide quality service; and (iii) support to operators in diagnoses and improvement plans for the management of their services.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
