Project Description

The objective of the IDB Green and Sustainable Finance Program is to promote sustainable investments for the socio-economic COVID-19 recovery, mainly in Colombia and Peru. The Program works simultaneously on the supply-side of bonds, by supporting their issuance, and on the demand side, by generating transparency and comparability for investors. It will help to mobilize private capital towards investments which boost economic growth, create jobs, and set LAC on a more sustainable and inclusive development path.

ACCOUNTABILITY MECHANISM OF IADB/IDB Invest

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
