### Project Description

The main objective of this Technical Cooperation (TC) is to support the IDB Group's coordinated effort for the strengthening of regional value chains in Latin America and the Caribbean (LAC), in the context of development opportunities identified in the Bank's Vision 2025 and its Concept Note on Strengthening Regional Value Chains in LAC, by advancing the completion of a comprehensive diagnosis to identify opportunities, both at the national level and within specific pre-identified sectors, with high potential for attracting investment, promoting exports and improving the region's insertion in value chains.

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
