Bank Risk Rating	U
Borrower	Regional
Sectors	Law and Government, Technical Cooperation
Investment Type(s)	Advisory Services
Investment Amount (USD)	$ 0.15 million
Project Cost (USD)	$ 0.15 million

Project Description

The objective of this TC is to improve the design and monitoring of public policies for government digital transformation through an increase in the quantity and quality of statistical information. Specifically, the TC seeks to promote the creation, updating or expansion of surveys carried out by the National Statistical Institutes to citizens, companies and public officials in the countries of Latin America and the Caribbean that generate evidence on the degree of preparation of these actors for digital transformation, as well as monitoring the progress of digital government policies and identifying priority areas for future intervention.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
