Investment Amount (USD)	$ 0.40 million
Project Cost (USD)	$ 0.40 million

Increased investment mobilization for green and resilient recovery with Micro, Small and Medium Enterprises (MSMEs) through National Development Banks (NDBs) support

Project Description

The objective of this intervention is the institutional and technical strengthening of NDBs and other public institutions for the provision of analytics and tools to identify green finance opportunities for MSMEs that can directly contribute to a climate-smart recovery in the selected countries. This will allow them to increase their abilities to identify, exploit and monitor the opportunities for climate finance with SMEs, and hence support the efforts of the IDB in increasing the level of climate finance with financial intermediaries dedicated to the productive sector and SMEs in LAC.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
