<b>Investment Amount (USD)</b>	\$ 0.48 million
<b>Project Cost (USD)</b>	\$ 0.81 million

---

## **Project Description**

Create a green hydrogen hub for Latin America and the Caribbean (LAC) that addresses the following topics: safety regulation, contract standards and certification of origin; and formulate a proposal for a harmonized certification of green hydrogen, which will include a study of potential certification mechanisms for green hydrogen or one of its associated products, such as ammonia, and a harmonized proposal for a safety regulation for the transport of green hydrogen.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
