Project Description

Design and implement a conflict sensitivity framework by delivering an innovative methodology at the service of government agencies that oversee mining development. The proposed framework will enable government stakeholders to adopt an integrated approach to conflict that is responsive to the local context it will do so by designing and mainstreaming a conflict prevention and management system and providing additional tools. This will in turn facilitate evidence-driven policymaking to stimulate a responsible mining sector and enable the attraction and implementation of complex investment projects in volatile environments.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
