Project Description

This TC proposes a roadmap for the development of climate-smart value chains in the Andean region. Specifically, the TC proposes to: (1) Identify two to three sectors per country in the Andean region and develop a roadmap for their successful insertion into global/regional value chains and (2) work with some of these chains on strategies that will enable them to be ready for the challenges arising from climate change and the policies being adopted to address it.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
