Project Description

General Objective. This TC's objective is to position the IDB as a regional leader and preferred partner in helping the region advance a climate change agenda that is socially inclusive, enables human talent development, guarantees that the transition to net zero emissions is just and inclusive, and protects the most vulnerable populations. Expected Results. This TC will: (i) mainstream climate change and environmental sustainability in the IDB Social Sector's (SCL) operational portfolio, increasing SCL's climate financing and aligning all of its operations to the Paris Agreement (PA) by 2023; (ii) develop knowledge on the intersection between social topics and climate change; and (iii) external and internal positioning and visibility of this joint agenda.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
