Project Description

The objective of this TC is to design and implement a platform with diagnostic tools for the readiness of teachers, schools and education leaders to effectively use technology for learning. The diagnosis includes an instrument for the self-assessment of Digital Teaching Competences and a planning instrument for educational centers and school districts. In addition to the platform, support will be provided to educational systems for the dissemination and use of the instruments.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
