Project Description

The Project seeks to support the protection of education trajectories of vulnerable youths between 9-14 years old by accelerating the recovery of learning outcomes that were lost due to school closure policies in order to mitigate exposure to COVID-19. This goal will be achieved through the provision of personalized tutoring and mentoring sessions that help increase academic performance in mathematics, reducing inter-annual drop-out rates and promoting progression rates.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
