Project Description

The general objective of this project is to support countries with enacting the post-2020 Global Biodiversity Framework of the Convention on Biological Diversity (CBD), focusing on the integration of natural capital into policy and investment decisions. The specific objectives are: (i) contribute to the mainstreaming of natural capital in select countries through the implementation of rapid approaches for Natural Capital Assessment and Accounting (NCAA); and (ii) based on country-specific experiences, provide the Global Environment Facility (GEF) Partnership with a standardized framework, customizable tools and training curricula for rapid NCAAs that support the integration of natural capital into policy and investment decision making processes.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
