Project Description

The objective of this technical cooperation (TC) is to support LAC governments by strengthening the macro-fiscal framework - which is defined set of tools to identify fiscal risks, management of the public finances under fiscal sustainability principles, design, and implementation of fiscal strategy to achieve the fiscal goals- that will contribute to the positioning of countries in order to face the covid 19 crisis, generate fiscal space to recover the path of fiscal consolidation, and contribute to the design of post-pandemic policies that will enable them to resume sustainable growth paths in the medium term. This TC is designed to support member country governments i) analytical tools to identify major variables which impact on the fiscal sustainability; ii) Create metrics to identify macro-fiscal risks and fragilities and provide countries with risk mitigation alerts and greater technical capacity for policy design.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
