PPP Upstream: Program for the creation and/or strengthening of regulatory and institutional conditions to trigger a new generation of Public-Private Partnerships in Latin America and the

Project Description

The objective of this Regional Technical Cooperation is to support the development and strengthening of regulatory and institutional environments that encourage private participation in the development and provision of economic and social infrastructure - ensuring the highest standards of sustainability, competition, transparency and inclusivity. All of this with the ultimate purpose of triggering a new generation of PPPs in LAC, focused on generating private investments in infrastructure through innovative mechanisms.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
