IADB-RG-T4214

Diagnosis and regulatory, institutional and territorial strengthening of public-private synergies for the management of environmental assets and conservation of the Amazon Basin

Quick Facts

Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	U
Borrower	Regional
Sectors	Climate and Environment, Law and Government, Technical Cooperation
Investment Type(s)	Grant
Investment Amount (USD)	\$ 1.00 million
Project Cost (USD)	\$ 1.00 million

Project Description

According to the Bank's website, the objective of this project is to generate a comprehensive diagnosis on public-private synergies for the sustainable management of environmental assets and forest conservation in the Amazon Basin and to strengthen the capacity to formulate, structure and implement Public-Private Partnership (PPP) projects, concessions and other modalities of private participation that achieve these objectives.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
