## Project Description

According to the Bank's website, the objective of this TC is to support public agencies to build institutional capabilities to strengthen their strategic transversal management, digital, transparency, and rule of law government systems through a solutions-driven approach. To this aim, the TC will work with selected public agencies in the region to: (i) carry out analytical work to understand capability problems faced by public agencies for the compliance of their functions and the delivery of services; (ii) design and iteratively adapt solutions-driven interventions aimed to create/strengthen the required capabilities; and (iii) implement pilots to test and adapt the proposed solutions to the characteristics of the public agencies in beneficiary countries.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
