Project Description

According to the Bank's website, this Technical Cooperation (TC) aims to improve critical knowledge and capacities/skill gaps to support and accelerate actions to address climate change challenges in LAC. It will be delivered through Massive Online Open Courses (MOOCs). The specific objectives are to: (i) implement new MOOC to address the learning needs of stakeholders in the Region on climate change (ii) use existing MOOCs as a tool to strengthen the understanding of and action on climate change challenges, and to identify new actions to support the execution of the existing and new portfolio of operations in light of the region's interest in building climate-resilient and low carbon development pathways.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
