Status	Approved
Bank Risk Rating	U
Sectors	Agriculture and Forestry, Climate and Environment, Technical Cooperation
Investment Amount (USD)	\$ 5.00 million
Project Cost (USD)	\$ 5.00 million

Project Description

According to the IADB, the main objective of this project is to create livelihood opportunities for the local communities while reducing the loss of biodiversity in the Amazon region that has been caused by (i) predatory economic expansion and (ii) the lack of a well-structured alternative regional economic development model based on the wealth of its biodiversity, a "bioeconomy".

Investment Description

- Inter-American Development Bank (IADB)

Contact Information

No project contacts available at the time of disclosure.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
