Investment Amount (USD)	\$ 0.25 million
Project Cost (USD)	\$ 0.25 million

Early Warning System

IADB-RG-T4296

Support Implementation of Sustainability, climate-related risks and carbon market public policy in Latin America and the Caribbean

Project Description

According to the Bank's website, the objective of this project is to support financial supervisors and regulators in issuing and implementing public policy for the financial sector related to sustainability and climate-related risks. The TC will analyze policy options, feasibility, and viability for implementing carbon markets (either voluntary or regulated) in the region.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
