Project Description

According to the Bank's website, the objective of this project is to support IDB member countries in their efforts to promote transparency and integrity in the public and private sectors through the promotion and implementation of integrity and corporate governance standards. Its specific objectives are: (i) to contribute to the design and implementation of integrity, transparency and open government policies in Latin America and the Caribbean (LAC), by strengthening transparency and integrity policies through the adoption of regulatory frameworks in accordance with international standards and promoting citizen participation and control through the design and implementation of open government policies, including digital tools; and (ii) to support the adoption of systematic integrity mechanisms for public-private and financial relations, including corporate governance mechanisms and codes of conduct, following international standards and best practices.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
