IADB-RG-T4308

Strengthening skills and capacities for the development and manufacturing of vaccine and bioproducts in LAC

Quick Facts

Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	U
Borrower	Regional
Sectors	Education and Health, Technical Cooperation
Investment Type(s)	Grant
Investment Amount (USD)	\$ 0.68 million
Project Cost (USD)	\$ 0.68 million

Project Description

According to the Bank's website, the objective of this technical cooperation is to fill the resource gap in enabling local vaccine manufacturing in the Latin American and the Caribbean region by strengthening the skills and capacities in bioproduction. This TC will fund knowledge sharing from South Korea's expertise and experience in strengthening the development and manufacturing of vaccine and bioproducts.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
