Project Description

As stated by the IADB, NaturaTech LAC aims to enable and scale high-integrity innovative nature-based solutions (NbS) that directly impact biodiversity conservation, climate change mitigation and adaptation, and people's well-being. This is achieved through four complementary components:

component 1) promotion of the adoption of emerging technologies and trusted digital infrastructures to this aim through supporting the development of proof of concepts and prototypes;

component 2) knowledge enhancement, including the strengthening of tech literacy of first-line adopters and other stakeholders;

component 3) connecting stakeholders from diverse sectors for more agile transboundary collaborations and systemic approaches; and

component 4) knowledge management.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
