## Project Description

As stated by the IADB, the objective of the project is to support the design and implementation of policies for the extension of the school day in LAC, targeting the following areas: (i) enhance and diversify learning opportunities; (ii) data-informed decision making; and (iii) innovative teaching strategies, while promoting gender equality. In accordance with the countries' needs and demands, the specific objective of the Facility is to increase public administrations' capacities to formulate, implement, monitor, and evaluate public policies programs for extended school day (ESD), considering the gender dimension. This specific objective implies supporting countries acquire in-depth knowledge of the opportunities of ESD, identify existing institutional, legal, financing and operational challenges to address them, and develop policies, programs and models of interventions to address such needs; as well as fostering gender sensitive and climate-sensitive ESD programs.

## ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
