| Project Cost (USD)      | \$ 0.15 million                             |

## Project Description

According to the Bank's website, the Objective of this Technical Cooperation (TC) is to support the preparation of the Global Environment Fund (GEF) operation "Towards a better understanding of the Amazon Aquifer Systems for its protection and sustainable management" (RG-4180). As a result of this TC, the IDB will provide support in developing the package of technical documents related to the RG-T4180 Project, which is planned to be submitted to the GEF in 2024.

## Investment Description

- Inter-American Development Bank (IADB)

No contact information provided at the time of disclosure.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
