IADB-RG-T4368

Supporting the development and deployment of the IDB-CLIMA

Quick Facts

| | |
|--------------------------------|---|
| Financial Institutions | Inter-American Development Bank (IADB) |
| Status | Approved |
| Bank Risk Rating | U |
| Sectors | Climate and Environment, Finance, Technical Cooperation |
| Investment Amount (USD) | \$ 0.80 million |

Project Description

As stated by the IADB, the objective of this Technical Cooperation is to fund all related research and dissemination activities pertaining to the development and deployment of the IDB Climate Linked Mechanism for Ambition (IDB-CLIMA). IDB-CLIMA will provide financial incentives through grants that are delivered alongside eligible investment loans to replicate a "step down", or discount, on loan interest rates contingent on the achievement and independent verification of key performance indicators for climate and biodiversity.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
