Project Description

According to the Bank's website, the general objective of this Technical Cooperation (TC) is to support the Caribbean Public Health Agency (CARPHA) in reducing the public health impact of pandemics in the Caribbean region. This will be achieved by strengthening technical capacities in comprehensive disease surveillance and early response systems, laboratory networks, and human resources and public health workforce capacity, and by enhancing coordination and collaboration at the national and regional levels.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
