Project Description

According to the Bank's website, this Regional Public Good will be a new institutional framework to support the adaptation of Central Banks policy making in South America to climate change through three components. Regional strategy and action plans: development of common strategies, guidelines, and action plans at the regional level. Analysis and research: a new institutional framework demands improvement and strengthening of CBs capacity to assess the macroeconomic implications derived from climate change. Methodologies and tools for regional application: application of methodologies and guidance on how CBs can manage risks and uncertainty challenges.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
