Project Description

According to the Bank's website, the general objective of this Technical Cooperation (TC) is to create a Regional Public Good (RPB) that contributes to greater regional integration in the Amazonian border regions, through a better institutional framework that promotes the development of productive sectors with an impact on trade and investment. To achieve the general objective, three specific objectives are proposed: (i) design and implement a methodology (methodological framework) and an implementation manual that helps strengthen the institutional framework, where local entities (Mayor offices or Prefeitura) have a fundamental role. and priority for action - especially - in the promotion of sustainable economic development sectors; (ii) application of the methodology (two pilots) to specific specific sectors, in order to create roadmaps that help promote and potential these sectors, in a coordinated, inclusive and sustainable way and; (iii) generation of training, coordination and collaboration instances between the different actors in the region.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
