### Project Description

According to the Bank's website, the RPG proposes the development of the following instruments: (i) A Regional Master Plan for Integration and Development of the CBC (PM-CBC) as the fundamental planning instrument for the corridor. This instrument will seek to define with a common and consensual vision a program of actions and projects structured and articulated in three dimensions: a) Facilitation of trade and cross-border processes: policy reforms, harmonization of regulations and procedures to facilitate the circulation of goods, services and people across borders. b) Physical and digital infrastructure: physical and digital connectivity infrastructure projects, works at border crossings and logistics nodes and associated services. c) Local productive and commercial development: identification of the main economic activities and existing and potential value chains and actions to enhance local productive development, business capabilities and human capital. (ii) CBC governance mechanism for management, implementation and monitoring of PMCBC.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
