Project Description

According to the IDB Invest, the objective of these Advisory Services (AS) is to catalyze and unlock private sector financing in low-carbon and sustainable infrastructure investments in Brazil and Peru, addressing the need to support the design and development of bankable and inclusive projects. The specific objectives of these AS are: (i) to support, promote, accelerate, and enable private investments in low carbon and resilient infrastructure by developing feasibility studies for the sponsor's projects; (ii) to innovate in financial, legal strategic or operational structures for transformational projects aiming at low carbon development; (iii) to develop capacity building and creation of sustainable and inclusive markets.

Early Warning System Project Analysis

According to the Environmental and Safeguards Compliance Policy, the AS has been classified as category C. No potential negative environmental and/or social impacts of the AS were identified and therefore no mitigation strategy is required to address any impact.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
