## Project Description

According to the IADB, the objective of this Technical Cooperation (TC) is to foster an enabling environment for sustainable finance in Latin America and the Caribbean, enhancing the ability of public issuers to tap into capital markets through issuance of green bonds with credible frameworks. The TC seeks to mobilize financing in alignment with regional priorities, while drawing on international best practices and, where feasible, leveraging EU frameworks and standards. Ultimately, the initiative aims to scale up private capital mobilization for sustainable investments in support of the SDGs.

## ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
