Project Description

According to the IDB, the objective of this Technical Cooperation is to support the development and implementation of tools and support services for the design, implementation, and evaluation of country operations with digital components and provide implementation support to the IDB's digital health portfolio. The specific objectives include: 1) support the implementation and evaluation of IDB country operations with digital health investments; 2) provide expert digital health services across the SCL/SPH portfolio related to business process transformation for NCDs and mental health; 3) position the IDB as a credible technical partner for digital health transformation; and 4) generate evidence for policy dialogue. This TC will also support the groundwork for the Pan-American Highway for Digital Health, a new regional initiative backed by the IDB, PAHO and countries in the region participating in LACPASS to enable connected health services in LAC.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
