IADB-RG-T4497

Strengthening National Household Censuses and Surveys and Statistical Models

Project Description

According to the IADB, the objective of this technical cooperation is to strengthen the statistical capabilities of various National Statistical Institutes of Latin America and the Caribbean through the incorporation of questions in Population Censuses and National Household Surveys to obtain better information on the sociodemographic and economic characteristics of the population.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (Spanish).
