Project Description

According to the IADB, the aim of this project is to support national and sub-national governments in strengthening their public procurement systems, which are a pivotal element in public finance management, ensuring the quality of public expenditure and the better management of public funds, and improving good governance in Latin America. Specifically, through: (i) implementing tools to enhance regulatory, digital, and organizational frameworks with a public value perspective; (ii) promoting the design and implementation of professionalization strategies to strengthen the skills and knowledge of the procurement workforce; and (iii) fostering strategic partnerships with stakeholders, and disseminating lessons learned within the region and development partners.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
