### Project Description

According to the IADB, the general objective of the TC is to contribute to the modernization and decarbonization of Latin America and the Caribbean's energy sector. The specific objectives are (i) to help accelerate the digital transformation of the energy sectors in LAC countries; and (ii) to study the potential of renewable energy technologies and the requirements for transmission development to contribute the Decarbonization of the power sector in the context of the 2050 net-zero emission scenario under the Paris Agreement.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
