Project Description

According to the IADB, the general objective of Technical Cooperation (TC) is to support Latin American and Caribbean countries in strengthening financial risk management and resilience to natural disasters and the effects of climate change. The specific objectives are: (i) to strengthen financial resilience to disasters and climate change; and (ii) to strengthen institutional capacity to respond to disasters, seeking to improve their effectiveness, efficiency and transparency.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
