Borrower	IDB borrowing countries
Sectors	Education and Health, Technical Cooperation
Investment Type(s)	Advisory Services
Investment Amount (USD)	\$ 5.00 million
Project Cost (USD)	\$ 5.00 million

Project Description

According to the IADB, the general objective is to provide high-quality, safe, and efficient digital healthcare services in the region and to strengthen regional resilience to epidemics and public health emergencies through the creation of the Pan American Route for Digital Health. The specific objectives are (i) to establish a harmonized legal framework and acquire the necessary regional digital infrastructure for cross-border data exchange; (ii) to improve national preparedness for implementing cross-border digital health services; and (iii) to empower individuals to consult and share their medical data, giving them greater control over their health.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
