### Project Description

According to the IADB, the objective is to promote and support the deployment of DPI in LAC. This project is a crucial step for closing the existing technology and investment gap in the region. Supported countries will receive technical and financial support for the rapid adoption of DPIs, which in turn will help the region develop successful DPI implementations that can serve as replicable models for other nations within LAC. This initiative aims to create a framework of best practices that can be adapted and utilized across the region to enhance digital transformation and economic integration.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
