Project Description

According to the IADB, the general objective of the TC is to develop the necessary tools and guidelines to assess how IDB projects are being targeted to the poor in Latin America and the Caribbean (LAC) to facilitate monitoring of project's contributions to its strategic objective to reduce poverty and inequality as stated in the Banks institutional strategy . The specific objectives are: (i) developing and updating poverty analysis tools to enable the identification of poverty-targeted operations; (ii) establishing a knowledge base for project classification across sectors, ensuring alignment with poverty reduction efforts; (iii) deepening country and regional poverty analysis; and (iv) enhancing knowledge dissemination and capacity building to ensure effective application of newly developed poverty analysis tools.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
