| Sectors | Finance, Technical Cooperation |
| Investment Type(s) | Advisory Services |
| Investment Amount (USD) | \$ 1.35 million |
| Project Cost (USD) | \$ 1.35 million |

Project Description

According to the IADB, the objective of this TC is to implement capacity-building-centered initiatives designed to address technical capacity gaps in the LAC region to improve climate change actions through fiscal policy and management. To achieve this overarching goal, specific objectives include: (i) develop and support capacity-building activities and peer-to-peer exchanges for ministries of finance, economy, and planning in LAC; (ii) support the development of an offer of professional program(s) on climate (and green) fiscal policy, designed to benefit the MoF in the LAC region, and to enable the establishment of a stronger base of professionals who can support them; and (iii) carry out initiatives to mainstream the subject of green fiscal policies in LAC's research institutions and foster the creation of an academic network around such subject. The expected result is to contribute to the creation of a deeper ecosystem of professionals with the technical capacities required to mainstream climate action within fiscal policies and management in LAC.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
