Project Description

According to the IADB, the objective of the Technical Cooperation (TC) is to contribute to the economic growth of the region by providing tools to the public sector that enable countries to assess the impact of their interventions more effectively and improve its delivery. To this end, the TC seeks to: (i) measure the impact of IDB portfolios by expanding the Huella initiative to other LAC countries; (ii) enhance the impact knowledge generated from IDB operations; and (iii) improve the efficiency of public service delivery in the Andean Region.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
