Project Description

According to the IADB, this project aims to support the ministries of education of Peru, and Honduras and the region indirectly in accelerating the digital transformation of their education systems with quality and equity. By leveraging Korea's expertise and technical support in this area, the project will develop a comprehensive Digital Transformation of Education (DTE) set of tools tailored to the unique needs of each country. The specific objectives are: (i) to develop and deploy a digital transformation diagnostic toolkit for education systems; (ii) to establish a DTE roadmap with a mapping of potential Korean solutions from the public and private sectors; and (iii) to organize a high-level dialogue in Korea with multi-stakeholders to showcase opportunities.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
