## Project Description

According to the IADB, this technical cooperation's (TC) objective is to creatively re-think challenges in Latin America and Caribbean (LAC) cities to co-create a more sustainable urban future in the region. Specifically, this TC aims to leverage IDB Cities Lab's experience in digital tools, participatory methods, and agile innovation techniques to (i) generate valuable insight on current trends and expectations on urban living; (ii) foster meaningful conversations to develop new agreements; (iii) test innovative solutions and assess their scalability and replicability into IDB operations; and (iv) generate and disseminate knowledge.

## ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
