Hydrological and Hydrodynamic Monitoring and Forecasting System for River Floods in the

Quick Facts

Countries	Bolivia, Ecuador, Peru
Financial Institutions	Inter-American Development Bank (IADB)
Status	Active
Bank Risk Rating	U
Voting Date	2024-12-10
Borrower	Government of Bolivia, Ecuador and Peru
Sectors	Climate and Environment, Humanitarian Response, Technical Cooperation
Investment Type(s)	Advisory Services
Investment Amount (USD)	\$ 0.50 million
Project Cost (USD)	\$ 0.77 million

IADB-RG-T4604

Hydrological and Hydrodynamic Monitoring and Forecasting System for River Floods in the

Project Description

According to the IADB, the objective of the CT is to develop an integrated hydrological and hydrodynamic modeling at the regional scale for Bolivia, Ecuador, and Peru, which allows the spatial-temporal analysis of hydrological time series in real-time, contributing to strengthening forecasts and early warning systems in this region.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (Spanish).
