Project Description

According to the IADB, the objective of this TC is to improve socioeconomic conditions, fight climate change, and help restore ecosystems in the Amazon regions of Peru, Guyana, and Suriname by supporting the implementation and growth of export-oriented sustainable bio-businesses. To that end, the planned activities aim to support the development of an online Amazon Bioeconomy Marketplace (ABM) to help the bio-business ecosystem in the Amazon region increase and diversify their exports and attract investment. The project will support small and medium sized businesses (SMEs), cooperatives, and producers associations. It will leverage the Inter-American Development Bank's (IDB) ConnectAmericas.com (CA) platform and its network of local partners in Amazon countries.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
