Project Description

According to the IADB, the objective is to strengthen the evidence base for the IDB's education portfolio in priority thematic areas. The specific objectives are to: (i) conduct systematic evidence mapping and desk-study reviews of global and regional education policies and interventions in five thematic areas, including interventions that involve digital education technologies, education infrastructure, literacy, continuous educational trajectories, and Technical and Vocational Education and Training (TVET); and (ii) develop an Economic Analysis Toolkit to address identified deficiencies in efficiency analyses at project closure by providing standardized methodologies and guidance to assess the cost-effectiveness of educational interventions.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
