IADB-RG-T4706

Enhancing knowledge dissemination on Water Security in preparation
for COP30

Quick Facts

Countries	Bolivia, Brazil, Colombia, Ecuador, Guyana, Peru, Suriname
Financial Institutions	Inter-American Development Bank (IADB)
Status	Active
Bank Risk Rating	U
Voting Date	2025-08-05
Borrower	IDB borrowing countries
Sectors	Technical Cooperation, Water and Sanitation
Investment Type(s)	Advisory Services
Investment Amount (USD)	\$ 0.15 million
Project Cost (USD)	\$ 0.15 million

Project Description

According to the IADB, the objective of this technical cooperation is to share knowledge products developed through the implementation of the Water Security Strategy and the Transboundary Program of INE/WSA at the COP 30 and events pre-COP. This includes promoting the recently approved program funded by GCF and IDB, "Improving Climate Resilience by Increasing Water Security in the Amazon Basin". While this TC focuses on the Amazon basin, it will also incorporate technical expertise and lessons learned from TCs executed in other regions of LAC. The aim is to provide reference knowledge products from these regions on water resilience, that can serve as replicable case studies for the Amazon, particularly in the context of COP30 in Belem, Brazil. The specific objectives of this TC are: (1) support the development and dissemination of knowledge products and communication materials on water resilience and the implementation of Nature-based Solutions (NbS) in the water and sanitation sector, (2) facilitate technical and political dialogues related to these knowledge products in preparation for the COP30, and (3) promote the dissemination of the GCF Water Security Program in the Amazon.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
