Project Description

According to the IADB, this Technical Cooperation (TC) seeks to support Latin American and Caribbean (LAC) countries in their OECD accession or other engagement processes, as applicable, by combining technical assistance, knowledge generation, and regional dialogue. The TC will place emphasis on Peru, Panama, and Uruguay, while also contributing to broader regional engagement and shared learning. The overall objective is to help countries meet OECD accession and partnership requirements or deeper engagement with OECD and leverage the process as a catalyst for institutional reform, transparency, and competitiveness. Specifically, the TC will: (i) provide tailored technical assistance and policy advisory services; (ii) strengthen institutional capacity through capacity building and peer-learning; (iii) generate evidence and comparative studies on OECD-aligned disciplines; (iv) facilitate regional dialogue and experience sharing; and (v) support targeted reforms in Peru, Panama, and Uruguay to advance their OECD engagement agendas.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
