Project Description

According to the IADB, the overall objective of this technical cooperation is to support Latin American and Caribbean countries in accelerating the decarbonization of transport services and improving the resilience of infrastructure, advancing the new frontier of the sector's climate transition, aligned with climate commitments and the COP30 framework. The specific objectives are to support: (i) the definition of public policies and climate strategies for the transport sector aligned with the NDCs and COP30, (ii) the development of effective regulations for decarbonization and resilience in transport (road, air, river and maritime), and (iii) the structuring of a portfolio of climate investments in transport, including innovative financing models to scale up the sector's transition.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
