Project Description

According to the IADB, the objective of Technical Cooperation (TC), within the framework of the Alliance for Security, Justice, and Development, is to generate knowledge with a regional focus to support the strengthening of crime response and prevention mechanisms in Latin American and Caribbean (LAC) countries, in order to address and prevent challenges associated with citizen security, especially in their transnational fight against organized crime. This TC seeks to promote knowledge-sharing initiatives and implement international best practices to adapt solutions across the three pillars that the Alliance has defined for combating crime.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
